Introduction

Milton Keynes Council has the duty to consult upon and determine its admissions arrangements for 2016 for those schools for which it is the admissions authority. The council is the admissions authority for all community and voluntary controlled schools, but not the admissions authority for all other types of school (voluntary aided, foundation or academy). This means that the council is the admissions authority for the majority of primary schools but none of the secondary schools in Milton Keynes.

This policy therefore intends to clearly and transparently lay out the admissions arrangements for all community and voluntary controlled primary schools in Milton Keynes with effect from admissions in September 2016. It applies to all those wishing to secure a place in a community or voluntary controlled school in the area at any time, but for those starting school for the first time, or transferring to junior school, this document should be read in conjunction with the council's co-ordinated scheme for primary admissions.

Marie Denny
Head of Delivery
Setting and School Sufficiency and Access

Children starting school for the first time

By law, a child must have started primary school at the beginning of the term after their fifth birthday – this is the start of compulsory school age.

The council's policy is to enable the admission of pupils at the beginning of the academic year in which their fifth birthday falls – that is, children may be admitted below compulsory school age. This means that pupils who were born between 1 September 2011 and 31 August 2012 may start school in September 2016.

When applying for a school place for the first time the council's policy is that:

- Attendance at the nursery does not guarantee admission to the school
- Parents/carers can request that the date their child is admitted to the school is deferred until later in the school year or until the term after the child reaches compulsory school age in that school year (see below)
- Parents/carers can request that their child attends part-time until the child reaches compulsory school age.

If a child is starting school for the first time the application must be made via the council's co-ordinated scheme. The closing date for receipt of an application for children due to start school in September 2016 is **15 January 2016**. For further details about how this scheme operates and the timeline which applies please refer to the council's co-ordinated scheme for primary admissions.

Delaying admission for children starting school

If a parent prefers their child not to be admitted at 4+, but chooses instead to wait a little longer, then this is acceptable as long as the child has started school by the beginning of the term after their fifth birthday. In such a case, an application form should still be submitted within the normal admissions round but the parent should state that they wish to take up their right to deferred entry. Any place offered should still be accepted within the normal response time and the place will be held open for that child but only up to the end of that academic year. A parent that has chosen to defer entry for their child will still be eligible to access funded early years education for 4 year olds and as such will be benefiting from an offer of education.

Any parent who wishes to delay admission for their summer born child (born between 1 April and 31 August) should be aware that deferring entry could compromise entry into Year 1. This is because it would not be lawful to hold a reception year place open beyond the academic year so that a place is available in the subsequent Year 1. It is therefore likely that in oversubscribed

schools, deferring entry for a summer term birthday child would not lead to an offer of a place in Year 1 in the following September. The council as admissions authority will only consider agreeing to the admission of a child to reception, one year below the child's chronological age in very exceptional circumstances.

Bringing admission forward for children starting school

It is not the council's policy to admit a child to mainstream school before the beginning of the academic year in which their fifth birthday falls. This policy applies regardless of academic ability.

Admission of a child into a year group other than that normally associated with their age

The council will only admit children outside of their chronological (age) year group in exceptional circumstances. Parents and carers should contact MKC Admissions if they wish to submit a request. Decisions will be made based on the individual circumstances of each case, and will take into account the parents' wishes; Information about the child's academic, social and emotional development; and whether they have been previously educated outside of their normal age group.

Reserved places

The law does not allow admissions authorities to reserve places for children who may, or may not, apply for a place later (except for the children of service personnel – please see specific section below). The council will therefore not reserve places in any circumstance. The law also precludes admission authorities from offering places in advance of parents being able to access these places due to a purported move to the area. In order for a place to be offered the place must therefore be accessible from the current address unless evidence has been received that a move is imminent (exchange of contracts or letting agreement will be accepted as evidence of imminence).

Children with challenging behaviour

The council will not refuse to admit children at any point in the admissions process on the basis of their behaviour elsewhere (unless the child has been permanently excluded twice) or make subjective judgements as to the suitability of certain children for schools. There is a Fair Access Protocol in place, agreed with schools within Milton Keynes, to ensure that – outside the normal admissions round – children who are unable to secure a place quickly through the normal admissions process, are offered a place at a school as quickly as possible.

The DfE provides no definition within its School Admissions Code of what it considers to be a "pupil with challenging behaviour", however community and

voluntary controlled schools in Milton Keynes will defer to the local Fair Access Protocol.

Children who have been permanently excluded twice

Where a child has been permanently excluded from two or more schools, a parent can still express a preference for a school place, but the law provides that the requirement to comply with that preference is removed for a period of two years from the date on which the latest exclusion took place. This does not apply to:

- Children with a statement of special educational needs or Education Health Care Plan
- Children who were below the compulsory school age when excluded
- Children who were reinstated following a permanent exclusion or who would have been had it been practicable to do so.

A permanent exclusion is regarded as taking effect from the first school day the Headteacher has informed the parent/carer that the child should not attend school.

Children with Statements of Special Educational Needs or an Education Health Care Plan

All admission authorities are required by section 324 of the Education Act 1996 to admit to a school a child with a statement of special education needs or an Education Health Care Plan that names that school. This is not an oversubscription criterion and the council will therefore admit such children whether the admission number has been reached or not.

Children with Special Educational Needs with no statement or Education Health Care Plan

Children with special educational needs will be treated as fairly as any other applicant. The law does not permit refusal of admission because it is claimed that the school cannot cater for the child's special educational needs and the council will consider such applications on the basis of the published oversubscription criteria.

Children of service personnel (UK Armed Forces)

For families of service personnel with a confirmed posting to their area, or crown servants returning from overseas to live in that area, the council will:

- Ensure that the needs of the children of these families are taken into account

- Allocate a school place in advance of the family arriving in the area, if the application is accompanied by an official government letter (e.g. MOD, FCO or GCHQ) declaring a relocation date and intended area”, address, if the applicant would meet the criteria on relocation. For in year admissions, the place must be taken up no later than the beginning of the term following the offer.
- Accept a Unit postal address or, if appropriate, a “quartering area” address (the address of the closest house in the nearest “quartering area”), for applications from service personnel in the absence of a new home postal address.

The council will not reserve places for blocks of these children.

Oversubscription for community and voluntary controlled schools

In the case where a community or voluntary controlled school is oversubscribed (more applications than places available), the Published Admission Number (PAN) for the school concerned will not normally be exceeded unless there are exceptional circumstances. The PAN for each school can be found at Annex A to this policy. In order to determine those applications that are successful, the council will use over-subscription criteria in order of priority. For the purposes of these criteria the following definitions apply:

- *Looked after child* is a child who is (a) in the care of a local authority, or (b) being provided with accommodation by the local authority in the exercise of their social services functions (see the definition in Section 22(1) of the Children Act 1989) at the time of making an application to a school.
- *Previously looked after child* is a child who has been looked after, but ceased to be so because they were adopted, or became subject to a residence order or special guardianship order.
- *Sibling* is a child of the family, sharing a parent by birth or adoption or living at the same address at the time of application and until and including the date of the offer letter. In the case of same age siblings, where there are insufficient places available to admit the children, the school will be authorised to exceed its Published Admission Number to allow admission of the subsequent child.
- *On roll at the school at the time of admission* means attending the school in national curriculum year groups (R to 6 inclusive) at the time the younger sibling is attending the school.
- The *catchment area* for each community and voluntary controlled school is defined at Annex B of this policy.

- *Place of residence* is determined to be the address of the parent or carer with whom the child spends the majority of time as a child of a family during term-time and proof of the home address, if required, should be a council tax reference number. If clarification is required of a particular catchment area, applicants should contact the Council for further details. If the child spends equal time with each parent/carers, the parents/carers must reach agreement as to which address will be classed as the child's place of residence for the application form. If agreement cannot be reached, the application received from the parent/carers in receipt of child benefit would be the application to be processed. Proof of receipt of child benefit would need to be provided.

- *Distance* from the school to the place of residence is measured from the school's main entrance to the place of residence in a straight line. This will be measured using the council's geographical information system.

The oversubscription criteria are as follows:

1. A "looked after child" or "previously looked after child"

2. A "sibling" at the school who is expected to be "on roll at the school at the time of admission" of the younger sibling and the "place of residence" is within the "catchment area" of the school

3. The child's "place of residence" is within the "catchment area" of the school and there is no sibling

4. There is already a "sibling" at the school who is expected to be "on roll at the school at the time of admission" of the younger sibling and the place of residence is outside of the catchment area

5. "Distance" from the school to the place of residence.

It should be noted that where over-subscription results in the PAN being reached within one of the five priorities then sub-prioritisation within priority will take place using distance.

If the PAN has been reached for all of the schools named on the application form and, therefore, no offer can be made for a preferred school, a place will be offered at the nearest school with places available (which may not be the catchment school).

Infant Class Sizes

Infant classes (i.e. those where the majority of children will reach the age of 5, 6, or 7 during the school year) must not contain more than 30 pupils with a single, qualified school teacher. The council must, therefore, refuse admission to a school if admission of an additional child to an infant class would result in

the class being in breach of infant class size legislation and result in the school having to take 'qualifying' measures, e.g., employ another teacher.

The infant class size legislation makes allowance for the entry of an additional child in very limited circumstances. These pupils will remain an 'excepted pupil' for the time they are in an infant class or until the numbers fall back to the current infant class size limit. The 'excepted children' are:

- a) Children with statements of special educational needs or Education Health Care Plans who are admitted to the school outside the normal admissions round
- b) Looked after children and previously looked after children admitted outside the normal admissions round
- c) Children admitted, after initial allocation of places on the offer date, because of a procedural error made by the admission authority or council in the original application process
- d) Children admitted after an independent appeals panel upholds an appeal
- e) Children who move into the area outside the normal admissions round for whom there is no other available school within reasonable distance
- f) Children of UK service personnel admitted outside the normal admissions round
- g) Children whose twin or sibling from a multiple birth is admitted otherwise than as an excepted pupil
- h) Children with special educational needs who are normally taught in a special educational needs unit attached to the school, or registered at a special school, who attend some infant classes within the mainstream school.

Accepting the offer of a place

Following the offer of a place by the LA, the applicant will be required to indicate acceptance, (either on-line or in writing) to the LA, within 14 days of the date of the offer letter. If a parent has not responded to the offer of a place within this time limit, the LA will remind the parent of the need to respond within a further seven days. Continued lack of response will result in the LA, as admission authority, withdrawing the offer in order that the place can be offered to another child awaiting a place.

Right of appeal

In the case where an application is declined due to oversubscription, all parents will be informed, by the council, of their right of an appeal against the decision made. All appeals will be heard by an independent panel, operate

within legislation and conform to the procedures laid down in the School Admission Appeals Code.

No waiting list will be held for a place at a community or voluntary school for any child declined a place at a school at any other point ('in year' applications).

Waiting Lists

The law requires that the council must hold a waiting list for all community and voluntary controlled schools for the autumn term after children start school for the first time in the normal admissions round (in Year R). In other words, if a child is unable to start school at the school of preference, a decline letter will be issued and the parent/carer will be asked if they would like to be placed on the waiting list, as well as being offered an alternative school place to start Year R in September. If the parent/carer wishes to be placed on the list, they will be placed on the list in order of the over-subscription criteria and offered a place at the school if and when the child arrives at the top of the list and a vacancy occurs. The list will cease operation on 31 December 2016.

No waiting list will be held for a place at a community or voluntary school for any child declined a place at a school in any other year group or after January 2017 in Year R, ('in year' applications).

Withdrawing offers of places

Once an offer of a school place has been made, the council will only withdraw that offer in the following circumstances:

- When a parent has failed to respond to an offer within a reasonable time. These arrangements define a reasonable time as 14 days from the date of the offer letter, inclusive. If a parent has not responded to the offer of a place within this time limit, the council will remind the parent of the need to respond within a further seven days
- When the place was offered on the basis of a fraudulent or intentionally misleading application from a parent which effectively denied a place to another child
- When a place was offered under co-ordination by the council, not the admission authority, in error.

The council will not withdraw a place once a child has started at the school, except where that place was fraudulently obtained. In deciding whether to withdraw the place, the length of time that the child had been at the school will be taken into account, for example, it might be considered appropriate to withdraw the place if the child has been at the school for less than one term. Where a place is withdrawn on the basis of misleading information, the

application will be considered afresh, and a right of appeal offered if a place is refused.

The role of the Headteacher and other school staff in school admissions

These admission arrangements support the guidance given in paragraph 2.1 of the School Admissions Code 2012 which states:

“While parents may express a preference for any state funded school – regardless of whether it is in the council area in which they live – admission authorities **must not** give any guarantees that the preference will be met.

Decisions to offer or refuse admission must not be made by one individual in an admission authority. Where the school is its own admission authority, the whole governing body, an admissions committee established by the governing body or the academy trust must make such decisions.”

Such principles are applied equally to in-year admissions, in that Headteachers or other school officials must not give parents or carers an expectation that their application will be successful, or tell them that their child has been given a place at the school, before an offer of a place has been made formally by the council. Conversely a school should not seek to dissuade parents or carers from applying for a school place by telling them that there is not a place available
